

Shark High Performance Hose

Smooth rubber inner tube

Multi-layer synthetic fiber reinforcement

Smooth wear-resistant rubber cover

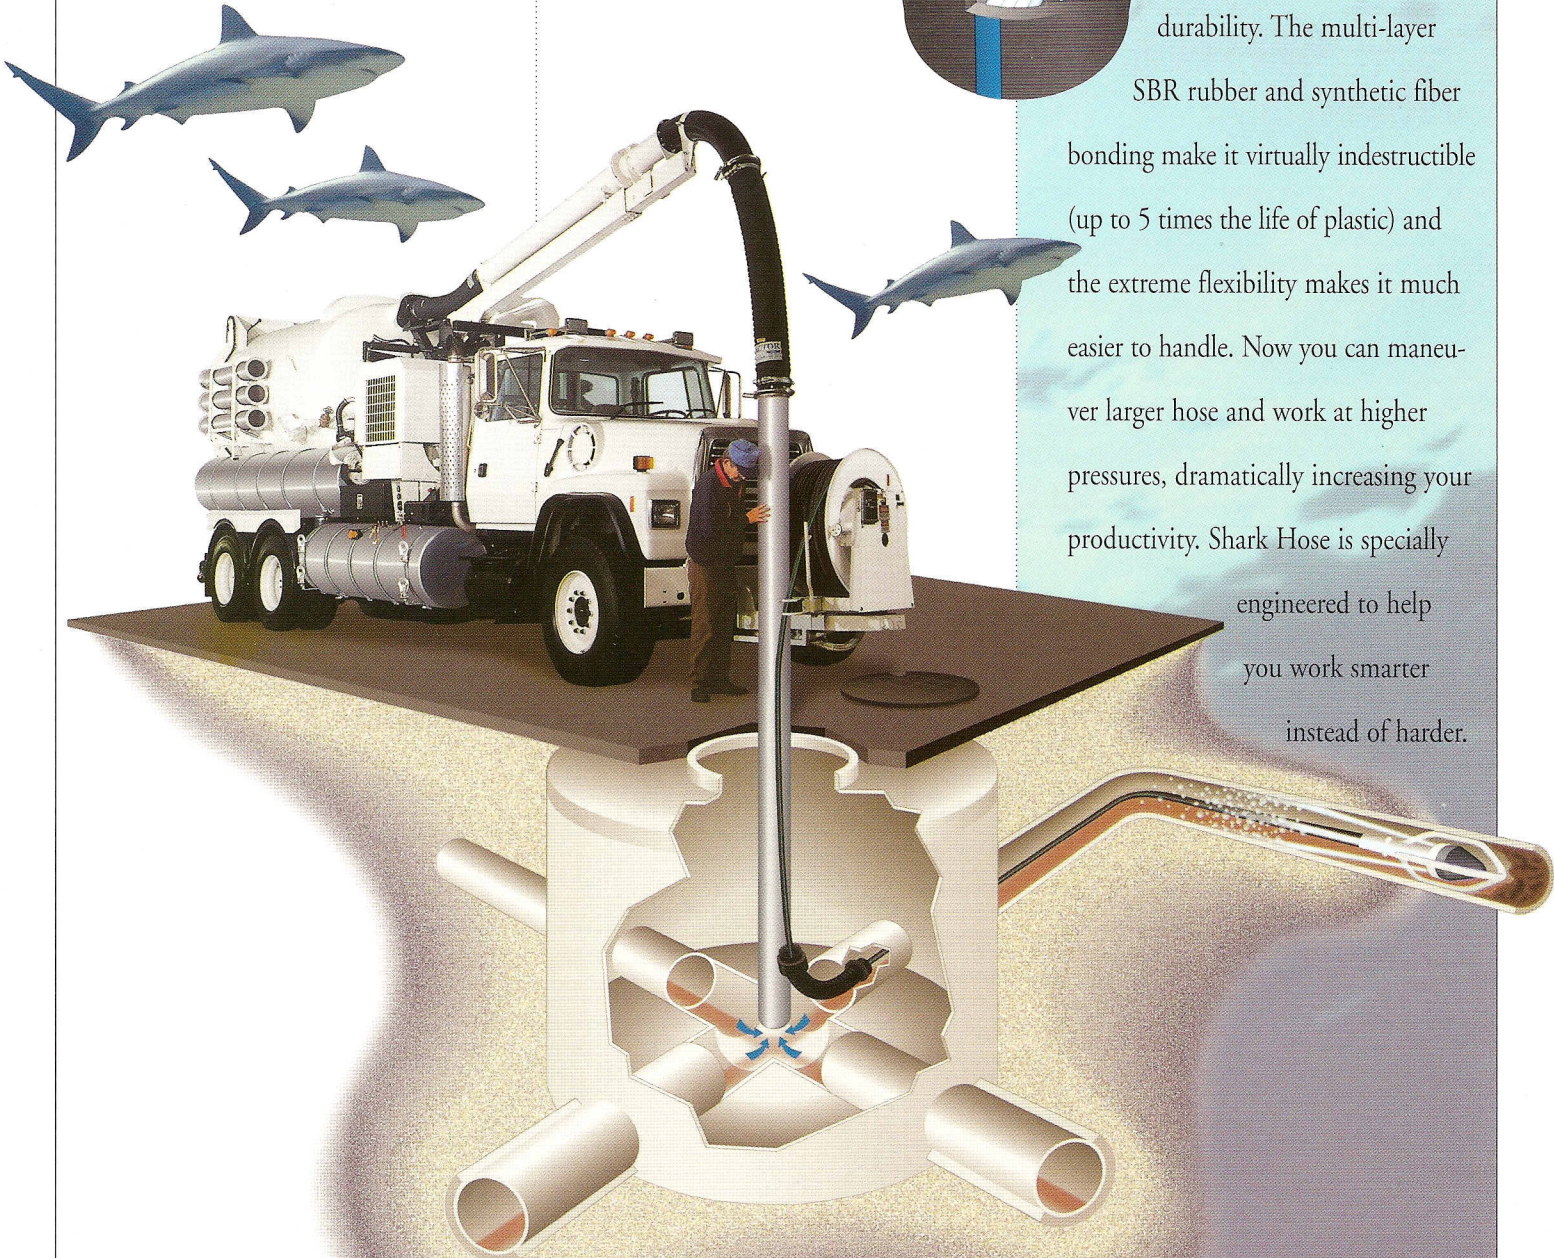

Unbelievable productivity for your machine

Vactor® Shark Hose attacks tough cleaning jobs with breakthrough flexibility and durability. The multi-layer

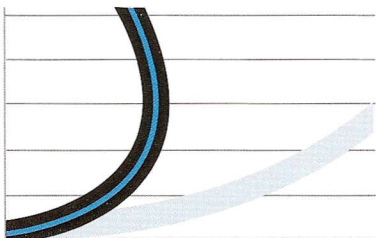

SBR rubber and synthetic fiber bonding make it virtually indestructible (up to 5 times the life of plastic) and the extreme flexibility makes it much easier to handle. Now you can maneuver larger hose and work at higher pressures, dramatically increasing your productivity. Shark Hose is specially

engineered to help you work smarter instead of harder.

Bonded rubber construction

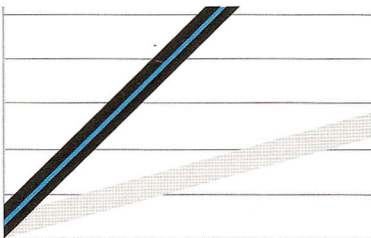

- Highest performance hose available. Unusual flexibility (even in temperature extremes) allows tighter bends and much longer runs.

Flexibility vs. plastic

Multi-layer synthetic fiber reinforcement

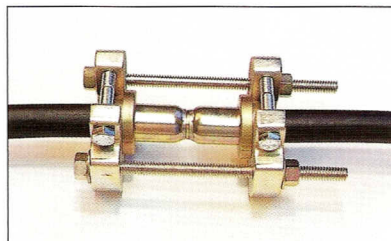

- Longest lasting hose available. Out lasts plastic up to 5 times in certified tests.

Durability vs. plastic

Completely mendable

- Repair kits available to maintain your Shark Hose to RMA IP-2 and NSWMA standards

Vector® Shark Hose Specifications	Diameter (I.D.)
2-piece rubber construction	✓
Lengths available (ft.)	Up to 800
Maximum rated working pressure (PSI)	3000
Maximum rated burst pressure (PSI)	7500
Menders available	✓
Male NPT couplings on each end (standard)	✓
